

# JASN RATHORE

jasn.p.rathore@gmail.com · jasn.rathore.vercel.app · linkedin/JasnRathore · github/JasnRathore

## EDUCATION

### Bharati Vidyapeeth (Deemed University)

B.Tech in Computer Science and Engineering

Aug 2024 – Present

Navi Mumbai, Maharashtra

### New Horizon Public School

Senior Secondary (XII)

July 2022 – Aug 2024

Navi Mumbai, Maharashtra

## SKILLS

**Languages** · Golang · JavaScript · TypeScript · Java · Rust · Python · SQL · C

**Frameworks** · React · Next.js · Spring Boot · Node.js · TailwindCSS · Vite

**Databases** · PostgreSQL · MongoDB · Redis · SQLite

**Tools** · Docker · Linux · NixOS · Git · Kali Linux · Figma · Blender

## EXPERIENCE

### Infraware

Software Intern

September – November 2025

Dubai, UAE

- Overhauled the company website, **cutting load time** by **60%** through server-side rendering and targeted optimization.
- Rewrote internal tooling from Python to Rust, improving performance and stability for further development.

## EXTRACURRICULARS

### GFG Club

Technical Head

August 2025 – April 2026

Navi Mumbai, Maharashtra

- Spearheaded and planned all the events including **Herizon** for **International Women in Science Day**
- Designed examples and setup for the **Agentrix** (ai agent workshop) using **N8N**

### Allgnite Club

Event Executive

January 2026 – April 2026

Navi Mumbai, Maharashtra

- Basic Volunteering and Disciplinary Work

### GFG Club

Web Co-Head

January – July 2025

Navi Mumbai, Maharashtra

- Developed and maintained the official club website using React and Next.js.
- Integrated Supabase and optimized image delivery for measurably improved page performance.

## FEATURED PROJECT

**Appointmently** · Java · Spring Boot · PostgreSQL · React · TypeScript · TailwindCSS

May 2026

- Scheduling SaaS with booking, recurring availability, team workflows, and automated notifications.
- Timezone-aware scheduling engine with overlap prevention and conflict resolution.
- REST API built on Spring Boot with JPA/Hibernate, JWT auth, audit logging, and role-based access control.
- Responsive dashboard in React with Zustand, React Query, and shadcn/ui.
- Custom SMTP mail service for invitations, reminders, and transactional delivery.
- Frontend · Backend · Mail Service · Live Demo

## SELECTED PROJECTS

---

**Glide** · [Go](#) · [HTML/CSS/JS](#) · [Desktop Framework](#)

May 2025

- Lightweight desktop framework for building cross-platform apps with web technologies and a Go backend.
- Packages frontend and backend into a performant native runtime for desktop deployment. [GitHub](#)

**Arlo** · [Go](#) · [Vite](#) · [Fullstack Framework](#)

June 2025

- Unified fullstack framework combining Vite frontend tooling with a Go backend compiled into a single binary.
- Simplified deployment workflow with streamlined tooling integration. [GitHub](#)

**FolioPage** · [TypeScript](#) · [React](#) · [Turso](#) · [Vercel](#)

February 2026

- Portfolio platform for students and early-career developers with zero-cost hosting and minimal setup.
- [GitHub](#) · [Live Demo](#)

## ADDITIONAL PROJECTS

---

**JHR** · [Java](#) hot reloader for game development with integrated debugging and live logging. [GitHub](#)

**JPM** · [Windows](#) package manager in [Go](#) with a custom parser for declarative installation instructions. [GitHub](#)

**Jyntaxe** · Minimal fullscreen code editor built with [Tauri](#), [React](#), and [Rust](#) for distraction-free development. [GitHub](#)

**Project Alias** · CLI alias manager for rapid project navigation using [Golang](#) and [SQLite](#). [GitHub](#)

**JCommand Chain** · CLI utility for chaining and concurrently executing terminal workflows. [GitHub](#)

**BUISQL** · GUI [MySQL](#) management application designed for non-technical users. [GitHub](#)

**GFG Club Site** · Responsive university club website built with [Next.js](#) and [Supabase](#). [Live Demo](#)

**Hades** · CLI CRUD application for prison record management using [Python](#) and [MySQL](#). [GitHub](#)

## LANGUAGES

---

**English** · Proficient   **Hindi** · Native
